OMB No. 2050-0190 Expiration Date: 4/30/2006

ENROLL US!

We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

IDENTIFYING INFORMATION Name of Organization: Anderson Instrument Company	Facility Name: Anderson Instrument Company
Principal Contact: William Wilson	Title: Acting President and V.P., Marketing and Sales
Authorizing Official:	Title:
Address: 156 Auriesville Road	City/State/Zip: Fultonville, NY 12072
Phone/Fax: (518) 922-5315 / (518) 922-8895	Email: bwilson@andinst.com
EPA RCRA ID Number:	Date: July 12, 2005
PARTNER AGREEMENT	
	onal Partnership for Environmental Priorities. Our goal is to reduce the
	ur products, processes, or releases using techniques such as source
	In this enrollment application, we identify one or more voluntary goals
	e voluntary goal(s) provided below is an initial estimate and may
	the program at any time. If/when we choose to revise our goals or
withdraw from the program, we will notify EPA.	
	CASRN: 7439-97-6
Narrative description of proposed project:	
We are phasing out production of non-industrial mercury the	rmometers by transitioning customers to new technologies.
-	
How we will measure success: We will measure success by comparing the amount of mercu	ry used before and after the project.
We will measure success by comparing the amount of mercu	reduce the amount of this chemical generated/used from a baseline
We will measure success by comparing the amount of merculars. 1a. Our voluntary source reduction goal for Chemical #1 is to amount of 1000 pounds in September, 2005 (month/year April, 2006 (month/year).	reduce the amount of this chemical generated/used from a baseline) to a reduced amount of _500_ pounds generated/used by
We will measure success by comparing the amount of merculars. 1a. Our voluntary source reduction goal for Chemical #1 is to amount of 1000 pounds in September, 2005 (month/year April, 2006 (month/year). 1b. To accomplish this goal, we will use the following source reductions.	reduce the amount of this chemical generated/used from a baseline) to a reduced amount of _500_ pounds generated/used by eduction options (check all that apply):
We will measure success by comparing the amount of merculars. 1a.
